

asked to consider inclusion of the Medicare reimbursement reforms contained in H.R. 4395.

I urge my colleagues to support this effort and take advantage of this unique opportunity to modernize and streamline HCFA's reimbursement system for new medical technologies.

H.R. 4395 will require HCFA to: Provide Congress with an annual report on its national coverage actions; annually update the payment levels for new medical products to reflect changes in medical technologies and practice; establish new procedures for reimbursement of new diagnostic tests; and improve the coding process, expediting the processing of reimbursement decisions.

Mr. Speaker these changes will establish order and predictability to HCFA's Medicare reimbursement process and, more importantly, could reduce the amount of time it takes for new medical products to reach Medicare beneficiaries by one-half.

Before we conclude our work in the 106th Congress, let's take action to ensure that Medicare recipients can count on the many benefits of new medical technologies. Let's include the provisions of H.R. 4395 in the amendments to the Balanced Budget Refinement Act.

ONE YEAR AFTER TAIWAN'S DEVASTATING EARTHQUAKE

HON. ROBERT W. NEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 21, 2000

Mr. NEY. Mr. Speaker, I commend the following article to my colleagues:

Many of us still remember the horrific earthquake that hit Taiwan on September 21, 1999. More than 2400 people were killed, hundreds were seriously injured and missing and 100,000 people were left homeless. About 1,000 homes and businesses were destroyed. Property damage amounted to billions of U.S. dollars.

The Republic of China government was swift and efficient in its rescue efforts. Rescue and relief operations were carried out by local and international specialized teams from 21 countries. Now a year later, the Republic of China has fully recovered from its economic losses, and the government has done everything possible to help its quake victims. For those families with quake-related deceased members, they have received cash grants and for families with collapsed or half-collapsed houses, they have received special loans to help them rebuild their homes. The government, with the help of the private sector, has also set up shelters for affected families.

In addition, Republic of China President Chen Shui-bian on June 1 this year set up a cabinet-level commission to oversee all reconstruction efforts. This commission will have members from all government agencies and ministries, and the commission's goal is to ensure that all affected families will have the chance to resume the lives they led before the quake.

In short, the Republic of China government has spared no effort in helping its quake-af-

ected families. Its financial outlay in reconstruction has amounted to nearly US\$ 5 billion. Indeed, the quake brought out the best in the Taiwan people. It has accentuated their ability to overcome adversity. They have learned to deal with the trouble and get on with their lives.

INTRODUCTION OF A RESOLUTION CONGRATULATING NANCY JOHNSON, A NATIVE OF DOWNERS GROVE, IL, ON WINNING THE FIRST GOLD MEDAL OF THE 2000 SUMMER OLYMPIC GAMES IN SYDNEY, AUSTRALIA

HON. JUDY BIGGERT

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, September 22, 2000

Ms. BIGGERT. Mr. Speaker, I rise today to recognize and honor Nancy Johnson, a native of Downers Grove in the 13th Congressional District of Illinois, for making history this past weekend.

Nine years after being advised to retire due to nerve damage in her arms and legs, Nancy Johnson overcame the odds to win not just a gold medal, but the very first gold medal of the 2000 summer Olympic games in Sydney, Australia. Nancy struck gold in the women's 10 meter air rifle competition.

Like all Olympic events, the competition was tough and came down to the wire. In fact, it came down to the final 10 shots. Neither Nancy nor the 7 other final round competitors blinked, budged or crumbled under the pressure. But, when it was all over, Nancy had edged out Cho-Hyun Kang of Korea by two-tenths of a point.

But Nancy's story is even more impressive than her Olympic triumph. Her victory is the story of perseverance. Her medal-winning performance was the culmination of years of hard work, dedication, competitiveness and, most importantly, family.

Nancy first took up the sport of shooting as a teenager. She and her father, Ben Napolski, often shot together at the Downers Grove junior rifle club. Ben and Diane, Nancy's mom, also lent their support while she competed in numerous competitions, including the 1996 Olympics in Atlanta where she finished 36th in her sport. Tragically, Diane passed away before she could see her daughter's magnificent accomplishment. But Ben, and Nancy's husband Ken, were there in Sydney to provide support, advice and gold-winning embraces.

Nancy Johnson's Olympic performance and shooting achievements also have helped to raise the level of awareness and appreciation for women's sports throughout the United States. Her love for a sport not typically associated with women serves as an inspiration for all of us, regardless of age or gender, to participate in activities we might not otherwise. Her performance also reminds us that participation in sport provides women, as well as men, with a means to gain the experiences, self-confidence and skills that are needed to succeed in all other endeavors.

Nancy's gold medal-winning performance epitomizes the goals and ideals of the Olym-

pics. These goals, which have not changed since antiquity, include a commitment to a goal, grace under pressure, unity, perseverance, fair play and good will toward fellow competitors. Most of all, her performance teaches us that Olympic competition is about the quest for excellence.

In closing, Mr. Speaker, Nancy Johnson has honored her family, her native home town of Downers Grove, her native state of Illinois and her country through her dedication to excellence and high achievement. More important, this young woman has left her mark in history. I ask that my colleagues join me in saluting her achievement and all that for which it stands.

CONGRATULATING THE ACCOMPLISHMENTS OF TEAM8 COMMUNITIES COALITION

HON. LYNN N. RIVERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, September 22, 2000

Ms. RIVERS. Mr. Speaker, it is with great enthusiasm that I rise today to commend a very special group from my district. The TEAM8 Communities Coalition, a community partnership comprised of the eight cities of Adrian, Albion, Belleville, Milan, Romulus, Saline, Sumpter, and Van Buren has made great advances in combating juvenile crime. These outstanding communities came together three years ago to build a model strategic defense against the escalation of drug-use and youth violence in the State of Michigan. Within that three year span, the communities have delivered prevention education services and youth development activities to more than 56,000 school children, reducing juvenile crime over 50 percent and in-school incidents by 75 percent.

Mr. Speaker, I am confident that TEAM8 will continue to make great strides in the fight to rid our communities of juvenile crime. Again, I commend TEAM8 and I wish all the participants continued success in the future.

HONORING THE CITY OF GALVESTON, THE PORT OF GALVESTON, AND CARNIVAL CRUISE LINES

HON. NICK LAMPSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, September 22, 2000

Mr. LAMPSON. Mr. Speaker, today I honor the City of Galveston, the Port of Galveston, and Carnival Cruise Lines on a very historic occasion. On September 27, 2000, the Texas Cruise Ship terminal at Pier 25 on Galveston Island will be rededicated. This \$10.6 million renovation and refurbishment of the historic 73-year-old terminal will equip the facility to serve as a home port for Carnival Cruise Line's 1,486-passenger vessel *Celebration*.

From the end of World War I until the late 1930s, luxury passenger ships owned by the Mallory Lines regularly sailed twice a week between Galveston and New York. A commitment was made in the mid-1980's by City of
